

KANAL PAWADI PIRAGOND

AI & Data Science Engineer | Software Development | Generative AI
+91 9096734431 | [Gmail](#) | [Github](#) | [LinkedIn](#) | Sangli, Maharashtra, India

PROFESSIONAL SUMMARY

Final-year B.Tech AI & Data Science engineer (CGPA 9.04/10) with hands-on experience building Full-Stack web applications and Generative AI systems using LangChain, Groq API, ChromaDB, and Next.js. Solid foundation in data structures, algorithms, and OOP. First Prize, GI-AI-SC 2026 (MIT WPU); published researcher, ICDAM-2026 (Springer).

TECHNICAL SKILLS

Languages: Java, Python(ML Libraries), C, SQL

Core CS: Data Structures & Algorithms, OOP/OOAD, DBMS

AI & LLM: LangChain, RAG Systems, Agentic Workflows, Prompt Engineering, Hugging Face, LLaMA 3

Full-Stack Web: Next.js, React, TypeScript, Tailwind CSS, REST APIs, Node.js

Databases: MySQL, PostgreSQL, Supabase

Tools: Git/GitHub, Streamlit, Vercel, Selenium, ChromaDB

WORK EXPERIENCE

Generative AI Engineer Intern - Sunbeam Institute, Pune [\[Live Demo\]](#)

Dec 2025 (1 Month)

- Built a RAG chatbot using LangChain + Groq API, reducing inference latency by 30% vs. an OpenAI baseline
- Automated data ingestion with Selenium + ChromaDB for consistent semantic retrieval across dynamic documents
- Deployed the application on Streamlit Cloud with REST APIs, automating roughly 35% of routine FAQ support

KEY PROJECTS

Clunite - Campus Event & Club Management Platform [\[Repo\]](#)

Current/ Final-Year Project

Next.js 14, React 18, TypeScript, Supabase, PostgreSQL, Tailwind CSS, shadcn/ui, Vercel

- Built a full-stack platform with dual dashboards for students and organizers to discover, register for, and manage campus events and clubs
- Implemented secure PIN-based club verification, real-time updates via Supabase, and type-safe forms with React Hook Form + Zod
- Designed an organizer analytics dashboard and deployed on Vercel with Blob storage for media handling

High-Speed RAG Chatbot - Sunbeam Institute [\[Live Demo\]](#)

Dec 2025

Python, LangChain, Groq API, ChromaDB, Selenium, Streamlit, LLaMA 3

- Architected a LangChain + Groq LPU RAG pipeline, cutting latency 30% vs. an OpenAI baseline
- Built a Selenium-to-ChromaDB auto-ingestion pipeline supporting dynamic document updates
- Tuned prompt chains to minimize hallucinations, automating roughly 35% of FAQ support via Streamlit

AI-Powered Inventory Demand Forecasting System(Time Series Analysis)

2025

Python, ARIMA / Prophet, Machine Learning, Streamlit, SQL

- Built an ARIMA + Prophet forecasting engine for 14-day inventory predictions, reducing MAE by 22% vs. baseline
- Deployed a Streamlit dashboard with live SQL queries, contributing to an 18% reduction in overstock costs

EDUCATION

B.Tech AI & Data Science (Honours: Big Data Analysis) - DKTE Society's Textile & Engineering Institute, Ichalkaranji (NAAC A+) 2023 – 2027

CGPA: 9.04 / 10 | Honours CGPA: 9.00 / 10

Class XII, Maharashtra State Board (HSC) - 71.80%

2022

Class X, Maharashtra State Board (SSC) - 91.80%

2020

ACHIEVEMENTS & AWARDS

- Published Researcher, ICDAM-2026 (Springer) - Lead author, "DigiHer: Scalable AI-based Framework of Crowdsourced 3D Cultural Heritage Reconstruction with WebXR"; AI-powered IQA + SfM/MVS pipeline achieving 4.6 - 5.9mm RMSE accuracy and a 96% + success rate
- First Prize, Global Interdisciplinary AI Student Competition, MIT World Peace University - Led a 3-member team to architect and ship a production-grade AI system in 48 hours

CERTIFICATIONS & LEADERSHIP

- AWS Academy Data Engineering, 40 hrs (Apr 2026) [\[Credly\]](#) ; **Finalist, National Level Hackathon**, IIT Roorkee
- Student Ambassador, Let's Upgrade EdTech Platform ; Volunteer Lead, Social Committee, DKTE ; Social Media Lead, DSSA
- Languages: English (Professional), Hindi, Marathi, Kannada
- LeetCode:** 250+ problems solved (Java, C) — Strengths in Dynamic Programming, Arrays, Hash Tables, Greedy; 100-Day consistency streak -Profile [\[LeetCode\]](#)
